PROJECTS

E-Commerce Website

- Designed and developed a static e-commerce website layout with product listings and a responsive design.
- Used HTML and CSS for structure and styling, with JavaScript for basic interactivity.
- Implemented layout responsiveness and reusable components with light use of Bootstrap.

Portfolio Website

- Designed and developed a personal portfolio website showcasing web development skills using HTML, CSS, and JavaScript.
- The website highlights projects, technical expertise, and professional experience.

Coffee Shop Website

- Created a simple full-stack web app for a fictional coffee shop with React frontend and Node.js backend.
- Built reusable components, handled routing, and implemented basic API integration.
- Focused on improving foundational skills in frontend design and server-side logic.

Graphic Designing

- Custom Invitation Card Design
- Web Design
- NewsLetter
- Branding Materials (Logos, Templates, Social Media Graphics)

Social Media Marketing

Created and scheduled **Instagram & Facebook posts** using Canva
